Lean Material Flow Solutions

ProFlow LITE™ Series

Flat Deck Carts

1350 Rockefeller Rd., Wickliffe, OH 44092, PH 440.943.4111, info@KtecInc.com, www.KtecInc.com

FLAT DECK CARTS

K-Tec ProFlow LITE™ Series flat deck carts deliver flexibility and top quality to complement lean material handling programs. Features include:

- Compact Frame, Formed/Welded Steel Panels
- 1,000lb. Rated Deck Loads
- Light Tare Weights, Quiet Operation
- Choice of Two (2) Popular Deck Sizes
- Low Push/Pull Force 4 Wheel Systems
- HD Floor Lock
- Simple "Hook & Eye" Coupling System

INDUSTRY LEADING DESIGN

Carts meet standard ergonomic limits for manual push/pull forces with heavy payloads and standup to tough loading conditions. FEA

(finite element analysis) puts stiffness and weight where needed to produce carts as light and rugged as possible. Numerous "attention to detail" features help K-Tec meet rigorous safety, reliability and durability standards. All K-Tec ProFlow LITE™ carts carry a one (1) year limited warranty.

LEAN and GREEN

Our carts extend the safe limits of human power to move loads manually. Tugging trains of heavy boxes and pallets consumes less energy than moving by conventional methods. This translates into reduced handling costs and lower overall emissions along the way.

K-Tec's standard ProFlow™ Series of carts with ergo-support products™ such as lifts and conveyors provide higher capacity and an integrated material flow solution. A "try before you buy" **demo program** for qualified customers delivers a hands on look at specific approaches without wasting investment dollars.
